Utility Right-of-Way Easement

W/O No. 70503
Township: 56N
Range: 84W
Sec. No. 15

The right-of-way and easement is granted for the purpose of constructing, reconstructing, maintaining, operating, repairing, inspecting, surveying, altering, abandoning, replacing, and/or removing above and below ground, telecommunications facilities and equipment (the facilities). The facilities at all times, until surrendered, remain the property of the Grantee, its successors or assigns, notwithstanding that they may be affixed to the land and may at any time or from time to time be removed in whole or in part by Grantee.

Whenever possible, all cable and of the facilities will be buried a minimum 48" below the surface of the ground. Grantee will bore under existing irrigation ditches and will not dig through them. Grantee will install the facilities in all three of the permanent easements by June of 2008, weather permitting. Grantee will install all facilities at its expense, and Grantor will bear no construction costs. As soon as reasonably practical, and in any event, within eight (8) months, after the disturbance, weather permitting, Grantee will reseed and restore to its original condition, as near as possible, all areas disturbed by Grantee. Grantee will prevent the spread of weeds as a result of its operations. Grantee will power wash all vehicles and equipment before entering on Grantor's lands and require its contractors to do the same. Grantee will provide evidence that the vehicles and equipment were power washed upon Grantor's request.

Grantee, its successors and assigns, shall have the rights and benefits necessary or convenient for the full use of the rights herein granted; including, the right of ingress and egress across the lands of the Grantor to and from the right-of-way, the right to use roads over and across the land of the Grantor, and the right from time to time to cut trees and undergrowth and remove other obstructions that may injure, endanger, or interfere with the right-of-way or use of the facilities.

Grantor has the right to fully use and enjoy the surface of the right-of-way except as to such use, which might interfere with the full use of the right-of-way by Grantees, their successors and assigns. Grantor shall not place any obstruction across, under, or upon the surface of the right-of-way that interferes with the construction or the normal operation and maintenance of the facilities. Either party may assign its rights to the agreement or delegate its duties as specified herein in whole or in part.

The Right-Of-Way Easement shall be governed by Wyoming law and constitute the entire agreement between the parties relating to the subject matter hereto. If any provision of this Right-of-way Easement shall be held invalid or unenforceable, the remainder of the Easement and the application of such provisions, other than that which has been held invalid or unenforceable, shall not be affected thereby, but shall continue to be valid and enforceable to the fullest extent permitted by the law.

Grantor makes no warranty of title or otherwise in entering into this easement, and this easement may cross portions of land subject to a restriction in favor of the Department of Veterans Affairs which provides that use of some of the land is restricted to grazing purposes unless written approval is obtained from the Department of Veterans Affairs.

IN WITNESS WHEREOF, the undersigned have set their hands and seals this 15 day of:
