Architectural Control Committee

Article IV, Section 4.3 of the DCCRs is hereby amended by adding to the existing language:

If the ACC shall find that any improvement shall have been undertaken without the approval of the ACC or otherwise in violation of the provision of this Article, the Association shall have the right to remove any such improvement at the sole cost and expense of the Owner or Owners of the Lot. If the ACC finds that an improvement was not completed in substantial conformity with the description thereof and any plans and specification therefor as approved by the ACC, it shall notify the Owner or Owners of such noncompliance and require remedy of such noncompliance. If within thirty (30) days from the date of such notification, the Owner or Owners shall have failed to remedy the noncompliance, the ACC shall notify the Board and the Association which shall have the right, at its option, to remove the improvement or to abate or remedy the noncompliance, in either case at the sole cost and expense of the Owner or Owners. In either of the foregoing cases, the offending Owner or Owners shall promptly indemnify the ACC, the Board, and the Association for all costs incurred in removing, correcting or abating such violation or noncompliance.

Section 5.1 - Land Use: This property is located in a Sheridan County Urban Residential Zoning District. Only uses allowed by the Sheridan County Urban Residential Zoning District and in accordance with all other applicable statutory, governmental, local rules and regulations and uses permitted by the DCCRs, including any duly recorded amendments, shall be allowed. Article V, Section 5.12 of the DCCRs is hereby amended by replacing the existing language with the following:

The Board of Directors may limit quantity of water to each lot as well as times of irrigation. The Association and each lot owner are responsible to comply with state laws regarding surface water, as well as any and all regulations of the ditch district.
