EXHIBIT A

AGREEMENT

THIS AGREEMENT made and entered into this 1st day of May, 1979, between the CITY OF SHERIDAN, Wyoming, hereinafter referred to as the City, and the SOUTH SIDE WATER AND SEWER DISTRICT, Sheridan County, Wyoming, hereinafter referred to as the District, witnesses the following understanding and agreement between said parties.

WHEREAS the City has been experiencing substantial growth, and the major portion of the District, which was originally located entirely outside of the City, has now been annexed to the City, and,

WHEREAS because of it's limited financial capacity, the District is unable to construct extensions or additions to it's collection mains to furnish service to prospective new customers within the District who are also residents of the City, and expect to receive sewer service, and,

WHEREAS the District has been experiencing increased financial problems in meeting the rising costs of operation and the retirement of it's bonded debt without increasing the already high service charges it must collect from the limited number of customers it is able to serve within the District, and,

WHEREAS the District operates only sanitary sewer collections mains and laterals, with necessary accessories, which are in effect an extension of the sanitary sewer system of the City, which accepts and disposes of the sewage collected by the District, and, it would be to the mutual benefit of both the City and the District, and the residents thereof, if the collection facilities of the District were integrated and incorporated into the sewage system of the City, now,

IT IS HEREBY AGREED between the parties as follows:

I.

In consideration of the covenants and agreements as hereinafter set forth to be kept and performed by the City

The City further agrees to honor and comply with all valid contractual obligations of the District existing as of

IV.

Resolution.

The City further agrees that it will honor and comply with all of the provisions of the South Side Water and Sewer Revenue Bond Resolution without default in any manner, and that the City will indemnify and hold harmless the District from and against any and all liability, loss or damage that the District may or might incur as a result of claims, demands, costs or judgments against the District arising out of non-payment of the sewer revenue bond issued under said Bond Resolution.

III.

The City further agrees that it will honor and comply with all of the provisions of the South Side Water and Sewer Revenue Bond Resolution without default in any manner, and that the City will indemnify and hold harmless the District from and against any and all liability, loss or damage that the District may or might incur as a result of claims, demands, costs or judgments against the District arising out of non-payment of the sewer revenue bond issued under said Bond Resolution.

II.

That for its part the City hereby accepts and takes over the administration of all of the business and financial affairs of the District, and the management and operation of all of the sanitary sewer facilities of the District; and agrees that the City will accept title to all of the facilities and other assets of the District subject to the lien of the bondholders of outstanding South Side Water and Sewer Revenue Bonds in the principal sum of \$320,000.00, the obligation of which the City agrees to assume and pay in accordance with the provisions thereof from revenues to be derived from the operation of the sewer facilities within the District.

the date of this Agreement, including purchased tap permits, to the same extent and in the same manner as would be required were the City a party to such contracts in lieu of the District; and the City agrees to indemnify and hold harmless the District from any and all liability, loss or damage arising from a breach of any such contract as a result of any action or non-action on the part of the City.

V.

The City further agrees that should any revenue derived from the sewer service furnished in the District become available for the construction of additional sewer lines, such funds shall be used first to complete those lines which were deleted, for lack of funds, from the original plans of the South Side Sewer System.

VI.

The City further agrees that it will accept and comply with the obligation of the District to furnish sewer service to residents of the District entitled to such service who are not residents of the City without requiring annexation to the City as a condition to furnishing sewer service.

VII.

It is further agreed by both the City and the District that should any one or more of the provisions contained in this agreement prove to be invalid or unenforceable, either by judicial decree, or by subsequent mutual agreement of the parties, such determination shall not affect, impair or invalidate the remaining provisions hereof, the intention of the parties being that the various provisions hereof are severable.

VIII.

Each of the parties hereto agrees that this Agreement is entered into in mutual good faith to accomplish the express purpose of integrating and incorporating the sewage collection facilities of the District into the municipal sewer system of the City to improve overall operation and reduce present and future expense to both

parties, and each party agrees that it will cooperate in the doing of all things necessary to carry out the express purposes of this Agreement.

WITNESS the signatures of the parties hereto this 1 day of July, 1979.
