6. Grantee agrees that it will cooperate as far as possible to the end that the construction, maintenance and repair of the cable television and/or communications facilities under said right of way will not interfere with the irrigation of crops, and that if such interference does occur, Grantor will be compensated for any damage resulting.

1. That in the event Grantee ceases to use and operate said cable television and/or communications facilities for a period of two (2) consecutive years, this right of way agreement shall terminate, and Grantee shall have no further rights hereunder, except that if said right of way is terminated by reason on non-use or by express agreement of the parties, then upon written notice from Grantor, Grantee shall, within six months from the date said written notice is postmarked, remove such cable television and/or communications facilities from the premises of Grantor or its successors in interest and in the event Grantee fails to effect such removal within said period, then Grantor or their successors in interest shall become full owners of said cable television and/or communications facilities and Grantee shall have no further interest therein.
2. That the consideration recited in this right of way agreement is merely for the purpose of securing said right of way and that in addition to the consideration herein recited, the Grantor shall be fully reimbursed for any or all damages, losses and cost sustained by Grantor as a result of the construction and laying of said cable television and/or communications facilities or the maintenance, repair, or removal thereof, together with the damages, if any, resulting to the lands of the Grantor by reason of said cable television and/or communications facilities easement, and that in the event the parties hereto are unable to agree as to the amount of such damages, losses and costs, the Grantor reserves the right, if necessary to institute legal action against Grantee for said damages, losses and costs.
3. The width of the right of way granted herein may be increased during actual construction of the cable television and/or communications facilities, and Grantee agrees that all construction work in relation to said cable television and/or communications facilities shall be confined to a fifteen (15) foot wide right of way.
