3. At the time 75% of the lots, or tracts, in this subdivision have been sold and conveyed by the undersigned owners, the purchasers or owners of said elect shall elect an architectural control committee consisting of not less than three (3) members, who shall then take over the duties of the owners as the agency to approve construction and to enforce the provisions of these covenants.

4. The first or main floor of a one-story single family dwelling, exclusive of porches, carports or garages, shall be not less than 1200 square feet, or if such single family dwelling contains more than one level (including split level or tri-level) the first two (split) levels shall be not less than a total of 1300 square feet of floor level.

No hunting of any kind shall be allowed in this subdivision, and the discharge of firearms on any part of the subdivision is specifically prohibited.

10. No advertising signs, billboards or other signs shall be permitted with the exception that one "for rent", or "for sale" sign, no larger than six (6) square feet, shall be permitted on any lot, or, an entrance gate sign to identify the owner or occupant of the property, but which sign must be approved by either the owner or its successor, the architectural control committee.

11. The undersigned owner, or the successor, the architectural control committee, shall have the right to vary the limitations provided by these restrictions and covenants to the extent of not more than ten (10) percent of the requirements, and shall have the right to enforce said restrictions and covenants and any amendments thereto covered by this section.

The owner shall construct all roads through the subdivision as the same appear on the maps and subdivision plan. After the original construction, all costs for maintenance and repair, or improvement of said roads, shall be equally shared by adjacent landowners. The responsibility for such maintenance,

17. No parking shall be allowed upon any of the roads in said subdivision and the owner of each lot or tract shall provide necessary off-street parking for at least two motor vehicles per residence, on a prepared area, graveled driveway, paved area, or concrete ramp area. 18. No towers, radio or television antennas shall be constructed to a height of more than twenty (20) feet above the highest roof line of the dwelling house on any residential lot or tract. All such towers and antennas must be attached to the residence.

19. Upon completion of any construction, any areas disturbed thereby, shall immediately be planted with suitable ground cover.

20. The restrictions and covenants herein shall run with the land and shall be binding on all parties and owners of any land in said subdivision, or any persons claiming under them, for a period of twenty-five (25) years from date hereof. Thereafter, said covenants shall automatically be extended for successive periods of ten (10) years, unless an instrument shall be executed by at least seventy-five (75%) per cent of the owners of said lots or tracts agreeing to a change thereof. It is specifically provided that these restrictions and covenants may be amended or altered at any time upon the approval of the owner, or owners, of seventy-five (75%) per cent of the lots or tracts in said subdivision.

21. The owner, or its successor, the architectural control committee, shall have the sole and exclusive right and authority to determine compliance with the covenants and restrictions contained herein, and to assess and allocate, and collect, the costs of any improvements, maintenance and repair of all roadways.

If the owner, or its successor, the architectural control committee, shall determine that there are any violations of any covenant contained herein, or if any owner of any lot or tract fails to pay any assessments when the same have been determined by the owner, or its successor, the architectural control committee, written notice thereof shall be delivered to the party violating said covenants, who shall have ten (10) days thereafter to correct the violation or to pay said assessment due. If payment is not made, or the violation not corrected, the owner, or its successor, the architectural control committee, may enter the premises and correct said violation. In addition thereto, the owner, or its successor, the architectural control committee, may assess damages against the person so violating said covenants, for failing to pay any assessments, at the rate of Twenty-five (\$25.00) Dollars per day for each day the violation continues after said 10-day notice, or after said failure to pay any assessment.
