It is the purpose and intent of the parties hereto that the grant hereby made shall cover all lands owned by the Grantor at the date of this agreement.

2. It is understood and agreed that the Licensee shall indemnify and save harmless the Grantor from any and all loss, damage and liability, including liability to third persons, occasioned or caused by any negligence in installing, equipping or maintaining the said lines of poles or towers and such transmission wires, guy wires, anchors, braces and other appurtenances for the uses and purposes hereinabove set forth or by reason of any negligence on the part of the Licensee in using or operating the same; provided, however, that neither the Grantor nor Licensee shall have the right to pay to any third party any sum of money whatsoever by way of compensation for damages occasioned or caused, or claimed to have been occasioned or caused, by any default or neglect hereunder without first notifying such other party of the character and amount of such claim and the circumstances connected therewith, and affording to such other party an opportunity of investigating and, if desired, litigating the same.

The Licensee may remove said lines whenever it may desire.

It is further agreed by the parties hereto that in the event the Licensee shall erect transmission or distribution lines other than those now erected on said land, it will so locate the same that they will not interfere with the Grantor's structures or operations thereon.

6. This License shall be in force and effect from the first day of June, 1941, to and including the 31st day of May, 1989, and thereafter until the Grantor shall have given the Licensee at least six months' written notice of its intention to terminate the same, and at the expiration of six months from the giving of such written notice this license shall be deemed revoked and at an end.
