

RECORDED JUNE 28, 1993 BK 359 PG 261 NO 141838 RONALD L DAILEY, COUNTY CLERK

Exhibit "C"

ss# 5427

Sheridan, Wyoming

RELEASE AND RIGHT-OF-ENTRY
(Plate 626-SP 2/93)

KNOW ALL MEN BY THESE PRESENTS THAT:

WHEREAS, AMOCO OIL COMPANY, a Maryland corporation ("Seller"), with offices at 200 E. Randolph Dr.
Chicago, ILL 60680, and Jon Tyler Diefenderfer & Kerry L. Diefenderfer
("Purchaser"), whose address is 320 Rock Creek Road, Buffalo, Wyoming, entered into a Real Estate
Sales Contract and Addendum to Real Estate Sale Contract dated April 20, 1993, (the "Contract"), covering certain real estate
and the improvements thereon described as set forth in Attachment #1 annexed hereto and made a part hereof (the "Property");

AND WHEREAS, Seller has agreed to sell and assign and Purchaser has agreed to purchase and accept the Property "as is" in its present
condition without any representations or warranties regarding its fitness for any purpose;

AND WHEREAS, Seller has provided to Purchaser a copy of the environmental assessment performed by or at the request of Seller, as set
forth in the Contract;

AND WHEREAS, Seller has further provided to Purchaser access to and the opportunity to inspect the Property and to perform such soil,
groundwater or other tests upon the Property as Purchaser deemed necessary or appropriate;

AND WHEREAS, Seller has agreed to perform certain environmental assessment, monitoring and remediation measures pursuant to the
Contract to address hydrocarbon contamination, if any, of the Property resulting from Seller's use prior to the date of transfer of title, and
Purchaser has agreed to assume all responsibility and liability for any and all hydrocarbons or other contaminants or regulated substances which
occur after the date of transfer of title;

AND WHEREAS, Purchaser and Seller desire to provide a continuing right of access to the Property to allow Seller to perform assessment,
monitoring and remediation measures after conveyance of the Property;

NOW, THEREFORE, in consideration of the mutual covenants of the parties herein and as set forth in the Contract, the terms of which are
by this reference incorporated in full herein:

1. For the period of time ending ten years after the date of transfer of title or at such sooner time as is (i) no further remediation activities
are required from Seller by the WY Dept. of Environmental Quality (the "Department"); or (ii) any gasoline,
diesel fuel, kerosene, benzol, naphtha or any fuel used for internal combustion engines is sold, handled or stored on the Property; or (iii)
Purchaser shall materially default in compliance with any applicable environmental laws or regulations, or shall otherwise default in the
performance of any material covenant in the Contract relating to environmental contamination, assessment or remediation; or (iv) a material
soil, leak or other release of hydrocarbons or other contamination occurs following the date of transfer of title which makes Seller's remedial
work significantly more difficult, or significantly increases the cost or extends the time to complete the remedial work (the "Ending Date"),
Seller agrees to indemnify and hold harmless Purchaser and Purchaser's heirs, legal representatives and successors (collectively the
"Indemnified Purchaser Parties"), from and against all claims, demands, damages, losses, judgments, penalties and liabilities which arise as a
result of any enforcement action arising from the presence of hydrocarbon contamination on the Property caused by Seller's use thereof prior to
the date of transfer of title; provided, however, that (i) Seller's indemnity shall be limited to remediation costs actually incurred by or imposed
upon Indemnified Purchaser Parties as a result of such enforcement action, (ii) Indemnified Purchaser Parties shall promptly notify Seller and
provide to Seller copies of all notices received by Indemnified Purchaser Parties pertaining to any such enforcement action, and (iii) Indemnified
Purchaser Parties shall incur no costs or expenses for remediation without the prior written consent of Seller.

2. Pursuant to the Contract, as of the date of transfer of title, Purchaser expressly (i) assumed all responsibility and liability for compliance
with all environmental laws and regulations and for any environmental assessment, inspection, monitoring and remediation relating to or
resulting from Purchaser's use of the Property; (ii) agreed at Seller's request, to provide to Seller assurance of compliance with all environmental
laws and regulations, including but not limited to the results of all future environmental tests, product inventory data, tank gauging data, tank
leak detection data and sampling data; (iii) agreed to promptly notify Seller of all leaks, spills or releases of hydrocarbons or other regulated
substances which occur or of which Purchaser becomes aware, and (iv) agreed permit Seller to perform product tracing and other reasonable
tests and procedures during the period of any assessment or remediation activities by Seller, it being the intent of the parties that Purchaser
shall be responsible and liable for any and all releases which occur subsequent to the date of transfer of title. Commencing on the date of
transfer of title, the Purchaser, for themselves and on behalf of their agents, employees, heirs, personal representatives, grantees, successors
and assigns (collectively the "Purchaser Indemnifying Parties") agree to indemnify and hold harmless Seller, its parent, affiliates and each of
their respective agents, employees, officers, directors, shareholders, successor and assigns (collectively the "Indemnified Seller Parties") from
and against all claims, demands, damages, losses, liabilities, judgments, penalties, suits, actions, costs and expenses (including consultants'

and attorneys' fees) arising from the presence of hydrocarbon or other contamination occurring after the Closing Date; provided, however, that from and after the Ending Date, the Purchaser indemnifying Parties shall indemnify and hold harmless Indemnified Seller Parties from and against all claims, demands, damages, losses, judgments, penalties, suits, actions, costs and expenses (including consultants' and attorneys' fees) arising from all contamination of the Property.

3. Purchaser, collectively, and jointly and severally, for themselves and on behalf of Purchaser indemnifying Parties, and all persons claiming by, through or under Purchaser, hereby release and forever discharge Indemnified Seller Parties from all claims, demands, losses, liabilities, judgments, penalties, suits, actions, costs and expenses whatsoever, that may now exist or hereafter accrue with respect to contamination of the Property existing at the time of transfer of title or occurring after the date of transfer of title, but not, except as hereinafter set forth, Seller's obligation to remediate hydrocarbon contamination of the Property resulting from Seller's use of the Property prior to transfer of title; and further covenant and agree to forever refrain and desist from instituting or asserting against the Indemnified Seller Parties, any claim, demand, action or suit whatsoever, either directly or indirectly, arising or resulting from contamination or alleged contamination of the soil or groundwater of the Property, or from the environmental condition of the Property, except to enforce the remediation provisions of the Contract.

4. Purchaser hereby grants to Seller, its agents, employees, successors and assigns, the irrevocable right to enter upon the Property, from and after the date of transfer of title, for the purpose of (i) engaging in environmental assessments, inspection and remediation, including but not limited to the installation of such facilities and the conduct of such activities as deemed necessary or advisable by Seller, in its sole discretion, or as are required by governmental authorities having jurisdiction, for a period of time required to comply with any applicable environmental law or regulation affecting the Property and (ii) removing from the Property any property and equipment not sold pursuant to the Contract. Seller shall not be liable for any damages to the Purchaser, direct or indirect, resulting from contamination of the Property existing on the date of transfer of title, or for any interruption or interference with any business or activities being conducted on the Property, or loss of opportunity, or any other loss, damage, costs or expense of any kind whatsoever, caused by or resulting from the condition of the Property or the performance of any activities authorized herein; provided, however, Seller shall use reasonable efforts to minimize such interruption or interference. Purchaser agrees to cooperate fully with Seller in the performance of the activities authorized herein so as to minimize the time and expense to Seller, including the grant of access to on-site utilities (e.g., electricity, sewer, and water), if required for such activities; and further agrees that, during the period of any assessment or remediation activities by Seller (i) no construction or improvements shall be permitted on the Property which would impede or restrict access to monitoring wells, remediation or monitoring equipment, or to the hydrocarbon plume, or which would modify or affect the size, location or nature of the hydrocarbon plume, without the prior written consent of Seller, which consent shall not be unreasonably withheld; and (ii) no gasoline fuel or other motor fuels shall be sold, handled or stored on the Property.

5. Purchaser warrants that no promise or inducement has been offered except as set forth herein; that this Release and Right-of-Entry is executed by Purchaser without reliance upon any statement or representation by Seller, its agents or employees, concerning the measure or extent of any contamination or the legal liability therefor; that Purchaser is of legal age, legally competent to execute this Release and Right-of-Entry and accepts full responsibility therefor; that this Release and Right-of-Entry contains the entire agreement between Purchaser and Seller with respect to this matter; and that the terms of this Release and Right-of-Entry are contractual and not merely recital.

THIS RELEASE AND RIGHT-OF-ENTRY, and each of the covenants herein contained shall run with the land and be binding upon the grantees, assigns and other successors in title or interest of Purchaser.

SIGNED AND SEALED this 14th day of May, 19 93.
