- (a) The Declarant may modify any of the provisions of this Declaration of any Supplemental Declaration for the purpose of clarification, by recorded Supplemental Declaration; provided no such modification shall change the substantive provision of this Declaration or any Supplemental Declaration or materially alter the rights of any Owner established by any such document, prior to transferring the authority to appoint members of the Committee to the Owners pursuant to Section 9.01.
- (b) The Owners may, at any time after the recording of this Declaration, modify any of the provisions of this Declaration or any supplemental Declaration by recorded Supplemental Declaration, to further the purposes set forth in Section 1.1, upon the vote of the Owners of three-fourths (75%) of the Lots within the Properties.

Committee Responsibilities:

The Committee may revise Trailside at Woodland Park Development and Building Standards and Covenants, provided that a majority of the Committee and the Homeowners' Association Board approves the proposed revisions and are in general compliance with the City of Sheridan and records the same at the Sheridan County Courthouse.

Matters Requiring Approval:

Prior written approval shall be obtained from the Committee with respect to all matters stated in the Declaration as requiring such approval. A matter requiring approval of the Committee shall be submitted to its Chairman, or as the Committee otherwise designates. Additionally thereto, no building, fence, wall or other structure shall be commenced, erected or changed upon the Properties, nor shall any exterior addition to or change in or alteration of any Lot or the improvements located thereon be made, nor shall any clearing of trees or change of property grade be made, until the plans and specifications showing the nature, kind, shape, elevations, heights, location and grade, design and proposed location on a Lot have been submitted to and approved in writing by the Committee. Procedure:

Whenever approval is required of the Committee, appropriate building plans and specifications shall be submitted to the Committee. The Committee shall either approve or disapprove such design and location and proposed construction and clearing activities within thirty (30) days after said plans and specifications have been submitted to it; except that, if such plans and specifications are disapproved in any respect, the applicant shall be notified wherein such plans and specifications are deficient. The Committee may withhold approval for any reason deemed by it to be appropriate, including aesthetic

reasons, except that approval will not be withheld for capricious or unreasonable reasons. If such plans and specifications are not approved or disapproved with thirty (30) days after submission, approval will not be required and this Article will be deemed fully complied with; provided that nothing herein shall be deemed to waive the obligation of each Owner to comply with the substantive covenants and restrictions of this Declaration, including without limitation the requirements of Articles IV and V. At the discretion of the Committee, a reasonable filing fee established by the Committee shall accompany the submissions of such plans to defray expenses, except that so long as the Committee is under Developer's control such fee shall not exceed 50.00 dollars (\$50.00). Outdoor Storage:

Outdoor areas housing trash containers, clotheslines, maintenance and service equipment such as lawnmowers, etc., overflow storage shall be screened from all adjacent properties by a wall or fence conforming to Development Standards.

Signage:

Signs shall not be displayed on any lot or any common area except that:

- (f) All home business signs or family name signs must not exceed 2 square feet and must be attached to the dwelling. No lighted signs or blinking or electronic signs will be allowed. Typical Christmas lights allowed Dec 1 thru Jan 15th.

Lighting:

Street lighting will be installed in accordance with City regulations by the Declarant. Owner may erect supplement lighting in accordance with their landscaping plan provided that such lighting does not result in excessive glare toward the street and neighboring properties. All exterior lighting must be of a low-level subdued intensity and is subject to approval by the Design Review Committee.

Foundations:

Foundations must harmonize and compliment the dwelling. Permanent, solid foundations are required. Simple skirting or false blocking will not be allowed. The City of Sheridan building standards must be followed. No straw or alternative systems will be allowed without written approval by the committee.

Exterior Materials:

- (a) Vinyl, aluminum, steel, and wood or fiber composition products, stucco, etc. will be allowed. Quality plywood composite applications will be allowed providing that panel runs and trim configurations must be carefully planned to avoid a proliferation of intermediate seam covers or reglets. Prefinished siding products must have a low-gloss wood-grained finish; wood and/or fiber composition products, must possess a porous wood grained texture suitable for the application of stain or paint.
- (b) The use of textured masonry block as an exterior finish material will be considered on a case-by-case basis, and should be limited to accent applications on the building façade. Masonry grouts would be of a non-contrasting color to blend unobtrusively with its masonry counterparts. Simulated or cultured stone will be allowed. The stucco may be used as an accent material, or may be considered for use as the predominant exterior finish material, in tasteful combination with other allowed materials, when warranted by the particular design style of the submittal. The Design Review Committee on a case-by-case basis shall determine the extent of stucco which is acceptable.
- (g) The aesthetic merits of any combination of exterior materials are subject to review and approval by the Design Review Committee in order to maintain the architectural integrity and consistent visual esthetics of a community of homes.

Roofs:

- (a) Allowable sloped roof forms include gable, hip, Dutch-hip, gambrel, or shed (in contemporary styles, or in combination with other traditional roof forms). Geodesic domes, mansard roofs, earth sheltered (sod roofing) and A-frames are prohibited.
- (b) Allowable roofing materials include fire retardant wood shakes or shingles, slate, flat concrete or clay tiles, nonreflective metal roofing with standing seams or battens, or premium dimensional asphalted shingles all meeting the City of Sheridan Building Ordinances. The use of any type of barrel or "S" tiles, asphalt roll roofing (except on limited flat roof elements), reflective metal roofing or roofing accessories, is prohibited.
- (c) All exposed metal on the roof (except for approved prefinished products), including, but not limited to, flashing, vent pipes, spark arresters, chimneys, ridge or eave vents, and skylight frames, shall be primed and painted to blend unobtrusively with adjacent materials.
- (d) All roof forms, both pitched and flat, are subject to the height limitations described herein.

Chimneys, Outdoor Fires, and Fireplaces:

Chimney elements are subject to the same material limitations described herein; freestanding exposed chimney pipes will not be allowed, except for the rare exception as an element of a contemporary design style.

- (a) All chimneys must be equipped with a U.L. or I.C.B.O. approved spark arrestor, including chimneys for outdoor fireplaces. Open outdoor fire pits are prohibited; barbecues are permitted, provided they are lidded cookers.
- (b) Wood burning stoves, and fireplaces are allowed. Coal burning is prohibited.

Exterior Colors:

The color combination of exterior materials should generally be subtle and tasteful to blend with the neighborhood and landscape. However, brighter accent colors which are used judiciously and with restraint may be permitted. Traditional white, muted pastels, belges, earth tones and grays are acceptable exterior wall colors. Colors approaching the primary range (red, blue and yellow) are discouraged, as are drastic contrasts in value (light to dark). Extreme contrast in colors of individual masonry units or between masonry units and their grout matrix should be avoided. Roofing materials should be of natural or medium to darker tones, avoiding bright whites, bright colors, light pastels, or highly reflective metal surfaces.

All color schemes must be approved by the Declarant prior to their application to any portion of a residential structure and after 100% Lots sold by design review committee. It is the intent of the Board to preclude the use of colors that would appear to be inconsistent or not harmonize with the neighborhood.

Windows, Doors, and Skylights:

Highly reflective glazing material and reflective sun screening films are prohibited for use in windows, glazed doors, skylights, or for other exterior applications. Vinyl windows and applications will be allowed.

Building Projections:

All projections from a residence or other structure including, but not limited to, chimney flues, vents, flashing, louvers, gutters, downspouts, utility boxes, mail boxes, porch railings and exterior stairways shall match the surface from which they project, or must be painted or stained an approved color to blend unobtrusively with adjacent materials. All building projections must be contained within the building setbacks.

Solar Applications:

Passive solar design is encouraged. Active solar applications can result in excessive reflective glare, and would only be approved by the Design Review Committee if the hardware is sufficiently integrated into the structure or landscaping of a lot so as to appear unobtrusive from any other lot or property.

Photovoltaic and Wind Energy:

Systems relying on renewable energy are allowed provided that appurtenances are camouflaged. Alternative energy systems must be reviewed for aesthetic compatibility and approved by the Design Review Committee. No external wind generators shall be erected.

Changes or Additional Construction:

All changes or additions to the approved plans before, during, or subsequent, to their initial construction must be approved by the Design Review Committee, before the alteration may be implemented.

General Provisions:

- (a) The Design Review Committee may assess reasonable fees in connection with its review of plans and specifications.
- (b) The Design Review Committee may delegate its plan review responsibilities to one or more of its members or architectural consultants retained by the Design Review Committee. Upon such delegation, the approval or disapproval of plans and specifications by such member or consultants shall be equivalent to approval or disapproval by the entire Design Review Committee.
- (c) The address of the Design Review Committee shall be the address established for giving notice to the Association, unless otherwise specified in the Development Standards. Such address shall be the place for the submittal of plans and specifications and the place where the current Development Standards will be kept.
- (d) The establishment of the Design Review Committee and the procedures herein for architectural approval shall not be construed as changing any rights or restrictions upon Owners to maintain or repair their Lots as may otherwise be specified in this Declaration, the Bylaws or Association Rules.
- (e) The Design Review Committee shall approve or disapprove any plans and specifications submitted to it in accordance with the Development Standards within such period as may be specified in the Development Standards or the Declaration.

Approval and Conformity of Plans:

No building, fence, wall or other structure or improvement of whatever type shall be commenced, erected or maintained upon the Property (except for initial construction on the Common Areas by the Declarant), nor shall there be any addition to or change to the exterior of any residence or other structure or improvement upon a Lot or the landscaping, grading or drainage thereof, including, without limitation, the painting (other than painting with the same color of paint as previously existed) of exterior walls, patio covers and fences, except in compliance with plans and specifications therefore which have been submitted to and approved by the Design Review Committee in accordance with the Development Standards as to harmony of external design and location in relation to surrounding structures and topography.

Non-Liability for Approval of Plans:

Plans and specifications shall be approved by the Design Review Committee as to style, exterior design, appearance and location, and are not approved for engineering design, structural integrity, or for compliance with zoning and building ordinances, and by approving such plans and specifications neither the Design Review Committee, the members thereof, the Association, any Member, neither the Board nor the Declarant assumes any liability or responsibility therefore, or for any defect in any structure constructed from such plans and specifications. Neither the Design Review Committee, any member thereof, the Association, the Board nor the Declarant shall be liable to any Owner or other Person for any damage, loss or prejudice suffered or claimed on account of

- a) the approval or disapproval of any plans, drawings and specifications, whether or not defective,
- b) the construction or performance of any work, whether or not pursuant to approved plans, drawings and specifications,
- c) the development, or manner of development of any property within the Project, or
- d) the execution and filing of an estoppel certificate pursuant to the Development Standards, whether or not the facts therein are correct; provided, however, that such action, with the actual knowledge possessed by him, was taken in good faith. An approval of plans and specifications by the Design Review Committee is not, and shall not be deemed to be, a representation or warranty that said plans or specifications comply with the applicable governmental ordinances or regulations including, but not limited to, zoning ordinances and building codes. The declarant and/or design review committee is not responsible or liable for any soils or lot testing or foundation designs, engineering or foundation failures. The City and Declarant recommend soils tests.

Inspection and Recording of Approval:

Any member or authorized consultant of the Design Review Committee, or any authorized officer, director, employee or agent of the Association, may at any reasonable time enter, without being deemed guilty of trespass, upon any Lot after reasonable notice is provided to the Owner in order to inspect improvements constructed or being constructed on such Lot to ascertain that such improvements have been or are being built in compliance with the Development Standards and this Declaration. The Design Review Committee shall cause such an inspection to be undertaken within thirty (30) days of a request therefore from any Owner as to his Lot, and if such inspection reveals that the improvements located on such Lot have been completed in compliance with the Development Standards, the Design Review Committee shall provide to such Owner a notice of such approval in recordable form which, when recorded, shall be conclusive evidence of compliance with the provisions of the Development Standards as to the improvements described in such recorded notice, but as to such improvements only.

ARTICLE 3 GENERAL RESTRICTIONS

Quality of Structures:

It is the intention and purpose of this Declaration to ensure that all Structures shall be quality of design, workmanship and materials, which are compatible and harmonious with the natural setting of the area and other structures within Trailside at Woodland Park Subdivision. All Structures shall be constructed in accordance with applicable City of Sheridan building codes and with more restrictive standards that may be required by the Committee.

Nuisances:

No noxious or offensive activity shall be carried on, in or upon any premises, nor shall anything be done thereon which may be or may become an annoyance or nuisance to the neighborhood. No outdoor lights that provide excessive illumination of adjacent lots shall be used on a routine basis. No plants or seeds or other things or conditions harboring or breeding infectious plant diseases or noxious insects shall be introduced or maintained upon any part of a Lot. It shall be the responsibility of each Owner to maintain his Lot free from accumulation of debris and from the overgrowth thereof of weeds and noxious vegetation. If an Owner shall fail to maintain the Lot or fail to cut the grass, weeds, or vegetation thereon, the Developer or the Committee, after ten (10) days written notice to Owner, shall be authorized to enter upon the Lot to cut and maintain the lot. If the Developer or Committee, or persons contracted by them, shall perform such work, Owner agrees to pay to the Developer or the Committee the reasonable costs of the work performed, but not less than the sum of Fifty Dollars (\$50.00) for each instance

where cutting or maintenance has been provided on Owner's Lot. The Lot shall be charged with a lien to assure payment of such charge upon the recording of this Declaration. The Developer or the Committee shall be entitled to designate an agent for the purpose of performing the mowing or cutting, and may further direct payment be made directly to such agent. No burning of refuse shall be permitted outside any Dwelling.

Temporary Structures:

No trailer, mobile home, recreational vehicle, tent, shack, garage, barn, Dwelling Accessory Building, outbuilding or other structure, and no temporary building or structure of any kind shall be used for a residence, either temporary or permanent, except as otherwise permitted herein or in any applicable Supplemental Declaration. Temporary structures used during the construction of a structure shall be on the same Lot as the Structure and such temporary structures shall be removed immediately upon completion of construction.

Mobile Homes:

No mobile home, boat, RV, etc. shall be permitted upon any Lot at any time. Temporary is one week or less, once per year.

Controls Applicable During Construction:

- Each owner shall be responsible for the conformance with all such rules by the Owner's builder and contractors:
- At all times during the construction period, a trash dumpster shall be located on the site and all construction debris shall be placed in dumpster. The dumpster shall not be dragged or do any damage to the asphalt in the street, curb or sidewalk. Any damage shall be repaired by the homeowner. Any and all construction debris shall be picked up by the homeowner or contractor and not allowed to be carried outside the lot by the wind. The roads shall be kept clean at all times. No structure shall be deemed completed until installation of approved landscaping.

Lot Appearance:

No person shall accumulate or store on his Lot junked, inoperable, unregistered, derelict or abandoned vehicles, or boats, trailers, horse trailers, heavy trucks, equipment or machinery, litter, refuse or other unsightly materials. Garbage shall be placed in receptacles provided therefore, and if located outdoors shall be properly screened.

Pet Control:

No animals other than inoffensive common domestic household pets such as dogs and cats shall be kept on any Lot. Each Residential Owner shall be required to clean up any feces or defecation produced by such pets on their property so not to become a odor nuisance to neighbors, and shall be strictly liable for all damage or injury caused by such pets. Owners are also responsible for picking up their animal's debris when walking on the common areas and city rights of way. And all pets shall be required to be kept inside the Residential Owner's dwelling or garage from 10:00 o'clock p.m. until 6:00 o'clock a.m. unless they are walking such pets on a leash, confined to deck area, or restricted on patio areas. At all times, owners shall prevent dogs from creating a barking nuisance or other nuisance and must not allow any animal out of the dwelling unless the owner is in the animal's presence outside the dwelling. Easements Reserved with Respect to Lots

Easements under and through each Lot are dedicated to the public and reserved for utilities and access as so noted on the plat. Declarant reserves the right to Ingress and egress as reasonably necessary to exercise such easements as follows:

- (b) The Owner shall not place any structure on any easement or setback area and shall be responsible for maintaining the easement. Any damages caused by an owner user of right to the easement shall be repaired and restored by such person who damages easement. On Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12, all yards with 20 foot easements, there shall only be a rolling gate or removal fence installed so that the city can maintain the pipes. If an owner causes damage to the utilities the owner will bear the cost of full repair. A lien will be placed on lot if damaged and not repaired.
- (c) No Owner shall have any claim or cause of action, except as herein provided, against Declarant, and the Design Review Committee or its successors, assigns, or licensees arising out of exercise or non-exercise of any reserved easement.

Motor Vehicles

No unlicensed vehicle, trailer, recreational vehicle, motorcycle, all-terrain vehicle, snowmobile, boat or other powered assisted vehicle shall be stored on any Lot except within the garage erected upon the Lot.

Police Power Easement.

With respect to the Common Areas and easements, the City of Sheridan, and all other governmental agencies and authorities shall have full rights of ingress, egress, regress and access for personnel and emergency vehicles for maintenance, police and fire protection, drainage and other lawful police powers designed to promote the health, safety and general welfare of the residents within the Property.

Water Rights.

All water rights are being retained by the declarant.

Re-subdivision.

The erection of more than one dwelling per lot or the re-subdivision of the lots is prohibited.

Deviations from Covenants and Restrictions.

The Committee shall have the power to enter into agreements with the Owner of any Lot, without the consent of the Owner of any other Lot or adjoining or adjacent property, to deviate from the provisions of the covenants restrictions within the jurisdiction of the Committee for reasons of practical difficulty or particular hardship which otherwise would be suffered by such Owner. Any such deviation, which shall be manifested by written agreement, shall not constitute a waiver of any such covenant as to other Lots in the Properties.

If the subdivision desires to permanently change the covenants or building standards, a confirmation vote of not less than 75% of the lot owners must be cast.

Severability, invalidation of any one of these covenants or building declaration by judgment or court order in no way shall effect any other provision, which shall remain in full force and effect.
